

REMARKS

Claims 14-25 are pending. Claims 1-13 have been canceled without prejudice to pursuing canceled subject matter in a continuing application, and without disclaimer of any subject matter. Claims 14, 19, 24, and 25 are independent.

The new claims find ample support in the specification. Claims 14 and 24 recite, "wherein the composition is one phase." Support for this language can be found throughout the priority application and claims as filed, and in the present specification at pages 9-12. There, Applicants disclose one-phase preparations at least in the form of shampoos. Thus, a single phase composition is possible within the scope of the disclosed invention.

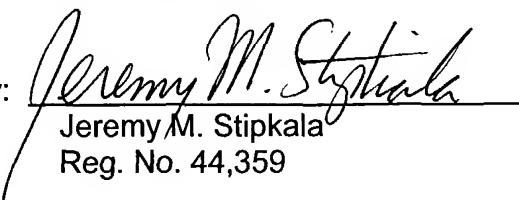

New claims 19 and 25 recite, "wherein the composition is a shampoo." This language finds support, among other places, in the specification at page 5, line 26.

Please grant any extensions of time required to enter this Preliminary Amendment and charge any additional required fees associated therewith to our Deposit Account No. 06-0916.

Respectfully submitted,
